- Contains 14 vitamins and 9 minerals missing in most seed/vegetable/fruit diets
- Extra vitamin C and E for increased breeding and as antioxidants
- Calcium gluconate carrier adds required calcium which is deficient in most other supplements
- Exotic fruit flavoring without added sugar which can promote pathogenic organisms
- Lysine and Methionine amino acids improve diet protein quality
- Unique combination of enzymes and acidifiers to improve digestion
- Micro-encapsulated Beneficial Bacteria (Probiotics) keep birds in top condition

Years of formulating and field testing have resulted in the *most advanced avian supplement*. Prime has excelled above all other supplements in providing all species of companion birds with their required nutrients. Prime, however, is not a dumping ground for every nutrient known to man - *ingredients were selected strictly on the basis of need*. This results in higher levels of those nutrients truly needed by birds. For most accurate dosage administration, we recommend Prime be sprinkled over your bird's favorite fruits and vegetables.
