

Fundamentals of Aviculture, Level I

written by Rick Jordan and Barbara Heidenreich
with anatomical drawings by Lyrae Perry

This greatly anticipated course covers:

- ❖ avian anatomy and physiology
- ❖ laws and regulations affecting aviculture
- ❖ avian taxonomy
- ❖ housing birds
- ❖ detecting and preventing illness in the aviary
- ❖ avian reproduction
- ❖ parrot behavior training

No travel time, no dress code, no books!

Fundamentals of Aviculture is an online course, followed at the participant's chosen pace. Those who pass are rewarded with:

- ❖ acknowledgement on the AFA website
- ❖ personalized certificate signed by the AFA President
- ❖ the rank of AFA Certified Aviculturist, Level I

Development was made possible by a grant from Pet Care Trust and by funding and other support from the Schubot Exotic Bird Health Center and the College of Veterinary Medicine at Texas A&M University.
