Retrieval Program Under Way

The A.F.A. Feral Exotic Bird Retrieval Program is currently being implemented in cooperation with the California Dept. of Food and Agriculture. If the program succeeds in recapturing escaped aviary birds, the state will NOT prohibit their possession, as is the case regarding Monk Parrakeets.

Current efforts are aimed at retrieving Indian Ringnecks, Nanday Conures, and Canary-Winged Bee Bees from the wild, or else they will be prohibited from our possession.

Please send all your sightings as well as your names, addresses, telephone numbers and the kind of help you are able to provide (OR CALL) to:
